Detail Information

Detail Information

Place Of Origin:	China
Certification:	Rohs
Product:	POS Mobile Terminal
Operating Voltage:	VCC 3.0~3.6V VCC_IO 3.0~3.6V
Operating Current:	106mA(Maximum)@VCC 3.3V
Standby Current:	65mA(Maximum)@VCC 3.3V
Operating Temperature:	-20 ~+50
Storage Temperature:	-40 ~+85
Operating Vibration:	10~150HZ, 0.5G, Triaxial Direction, 1min/Oct, 1 Time/Axial
Durable Vibration:	10~150HZ, 2G, Triaxial Direction, 1min/Oct, 20 Times/Axial
Fall Test:	Withstand 1.2m Drop To Cement Floor (50 Times Of 1.2m Repeated)
Packaging Details:	Ctn

Highlight:

1200x800 POS Mobile Terminal, **NFC POS Mobile Terminal**, **4g android payment terminal**

Product Description

Small-sized Mobile Payment Device for Secure Payments android mobile pos terminal
Android Mobile POS Terminal with Secure Payment Features POS Mobile Terminal

Description:
The small-sized mobile payment device for secure payments is a compact device known as an Android mobile POS terminal. It is a mobile payment terminal based on the Android operating system, providing a secure and reliable payment solution.
The small-sized Android mobile POS terminal has several features. Firstly, it supports multiple payment methods, including credit cards, debit cards, mobile payments, and QR code payments. Secondly, it has advanced security features such as data encryption, fingerprint recognition, and password protection to ensure the security of payment data. Thirdly, it incorporates smartphone functionalities such as a touchscreen, camera, and wireless connectivity, enabling convenient payment processing and interactive operations for merchants. Fourthly, it typically

camera, and wireless connectivity, enabling convenient payment processing and interactive operations for merchants. Fourthly, it typically comes with a rich set of software applications that support inventory management, sales reporting, and customer management.

The small-sized Android mobile POS terminal is widely used in industries such as retail, hospitality, and logistics. Merchants can use this mobile device for payment processing in-store or on-the-go, providing a convenient payment experience. The portability and flexibility of the small-sized terminal empower merchants to accept payments anytime and anywhere while ensuring the security and accuracy of payment information.

Specification:

Parameter	Performance	
Image sensor	Mono CMOS	
Pixel	1280(H)× 800(V)	
Shutter	Global shutter	
Frame rate	Up to 60fps	
Illumination	White light	
Aiming	Red laser	
Field of view	Horizontal 39.5°,Vertical 26.1°	
Decode type	2D	Aztec Code,Han Xin Code,Data Matrix,Maxi Code,Micro QR Code,QR Code, etc.
	1D	Standard one-dimensional code
	Postal Code	Australian Post,British Post,China Post,Japanese Post,KIX Post,Korea Post,Planet Code,Postnet,Royal Mail Code (RM4SCC), etc.
DOF*	EAN-13(13mil)	45~590mm
	Code 39(20mil)	45~930mm
	Code 39(10mil)	65~470mm
	Code 39(5.5mil)	70~340mm
	Code 39(3.9mil)	60~220mm
	Data Matrix(15mil)	50~420mm
	Data Matrix(10mil)	50~300mm
Resolution*	1D:2.5mil,Data Matrix:5mil,PDF417:3mil	
Contrast*	≥20%	
Angle **	pitch	±60°
	tilt	±180°
	skew	±60°
